1, 2, 3, 4, 5

OrthoStride®

Ultra OA Knee Brace

KEY FEATURES:

- **Accelerates Recovery:** Tailored support for faster healing.
- **Reduces Pressure:** Unloading mechanism for pain relief in the affected compartment.
- **Post-Injury Recovery:** Ideal for soft tissue injuries.

BENEFITS:

- **Focused Comfort:** Robust stability for unicompartmental OA.
- **Pain Reduction:** Enhances movement, reduces chronic knee pain through 3 point pressure.
- **Height Adjustable & Dynamic:** Ensures comfort and mobility via customization and easy application.

SIZE:

UNIVERSAL with left/right

WHAT ARE KNEE BRACES?

- Valuable tool for **conservative** management of orthopedic conditions of the knee joint that may otherwise require surgery.
- They alleviate **pain**, improve joint **stability**, and promote **alignment** in Osteoarthritis patients.

WHERE AND WHEN TO USE?

- **Support and pain relief** in early stage OA and knee injuries in active adults.
- For **stabilizing and unloading** the knee in unicompartmental and multi compartmental OA, RA and severe injuries.

HOW IT HELPS?

- Unloading
- Stabilization
- Alignment
- Support
- ROM Control
- Compression

WHY CHOOSE KNEE BRACES?

- Non **invasive, cost effective** alternative to delay surgery in select cases.
- Limits progression.
- Fosters mobility and confidence while improving quality of life.

OrthoStride® was earlier branded as “**FlexiBrace**”
